DATES TO REMEMBER

27th February 2015  ➔ Deadline for submission of symposia
July 2015  ➔ Final Announcement/Call for poster abstracts
July 2015  ➔ Registration Open
4th February 2016  ➔ First deadline for early registration fee
4th February 2016  ➔ Deadline for poster abstract submission
4th February 2016  ➔ Deadline for Award application
4th February 2016  ➔ Deadline for receiving speaker abstracts for accepted symposia
5th June 2016  ➔ Second deadline for registration fee
3rd July 2016  ➔ Opening Ceremony of CINP 2016
CINP and Congress President
Prof. Shigeto Yamawaki
Hiroshima, Japan

Host Organisation - CINP Central Office
Glenfinnan Suite, Braeview House
9-11 Braeview Place, East Kilbride

Seoul

Seoul has developed into a bustling metropolis, acting as the hub for political, economical, social and cultural matters. The Han River, which runs through the centre of the city, divides Seoul into the culture and history-orientated northern region, and the business-orientated southern region. The Seoul metropolitan area contains four UNESCO World Heritage Sites: Changdeok Palace, Hwaseong Fortress, Jongmyo Shrine and the Royal Tombs of the Joseon Dynasty. Today, Seoul is one of the leading and rising global cities in the world.

ABOUT SEOUL

Seoul is the capital and largest metropolis of Republic of Korea. The Seoul Capital Area, which includes the surrounding Incheon metropolis and Gyeonggi province, is the world’s second largest metropolitan area with over 25.6 million people and home to over half of Republic of Koreans along with 632,000 international residents.

Seoul has been the capital of Korea for more than 600 years, since the Joseon Dynasty (1392-1910).
Globalization has broken down the traditional boundaries separating individuals and societies, and technological innovation such as internet and smart phones have provided us with effectiveness, convenience and affluence. However, these processes are changing the nature of human interaction and clearly have both negative and positive results, and it is likely to create both losers and winners. According to a WHO report, the prevalence rate of mental disorders such as depression, anxiety and drug abuse has been rapidly increasing both in developed and developing countries. CINP is the only International College of Neuropsychopharmacology that has been contributing to the development of pharmacotherapy for mental disorders for more than half a century. In the long history of the CINP, the memorable 30th Congress will be held in Seoul, Korea, in July 3rd – 7th 2016, which is the third time in Asia following the 1990 Kyoto Congress and 2010 Hong Kong Congress.

Seoul is the capital city of Republic of Korea with an official history of 600 years. Seoul has many temples and four major palaces such as the most famous Gyeongbokgung. The city offers many other cultural and artistic attractions including the Museum of Art, which features traditional porcelain, textile and jewellery exhibits. There are also old tombs and ancient remains such as the Seoul Fortress, located in the Jongno-gu, Jung-gu and Seongbuk-gu areas of the city. The Congress Venue, Convention & Exhibition Center (COEX) is located in the center of the city and easily accessible from Incheon airport which is convenient for air travellers coming from Europe and America as well as any point in Asia.

Please put the dates in your diary now and watch for further announcements with regard to submitting papers and posters or registering to attend. We look forward to welcoming you to the historical, beautiful and cultural Asian city of Seoul.

Sincerely yours,

Professor Shigeto Yamawaki, MD, PhD
President of CINP (2014 – 2016)

Professor Jun Soo Kwon, MD, PhD
Chair of Local Organizing Committee

---

**ABOUT CINP**

The International College of Neuropsychopharmacology (CINP) is a truly worldwide organisation established over 50 years ago in Zurich, Switzerland. CINP hold meetings all over the world with the aim to promote research and education on a worldwide basis. These meetings mainly cover one of the four types below:

- Thematic Meetings
- Regional Meetings
- Training/Educational Programmes
- Biennial World Congress

Any member of CINP is able to submit a proposal to the Executive Committee via the CINP Central Office should you wish to hold a Thematic or Regional Meeting in your area.

The Executive Committee and Councillors of CINP are nominated by the membership and serve as an officer of the College for a minimum of 4 years. These individuals cover a wide range of disciplines within the field, from psychiatrists, psychopharmacologists, basic and clinical researchers to clinical psychologists. CINP also relies on its many subcommittees who undertake a variety of activities for the College.

Membership of the College is available to any individual to apply for and we offer members the opportunity to become part of this knowledgeable group of scientists who work at an international level. The membership application is reviewed by a dedicated committee on a regular basis and applications can be made online. As a member of CINP you may have the opportunity to be invited to one of the smaller meetings or invited to participate in the running of the College by sitting on a subcommittee.

The International Journal of Neuropsychopharmacology (IJNP), with a steadily increasing impact factor, has become a sought after publication. Articles are received and peer-reviewed independently and published after a rigorous review process. CINP are pleased to announce that IJNP will become Open Access with Oxford University Press from 2015.

For more information about the College please go to our interactive web site at www.cinp.com
EXECUTIVE COMMITTEE

President
Shigeto Yamawaki, Japan

Past President
Anthony Phillips, Canada

Vice Presidents
Pierre Blier, Canada
Toshikazu Saito, Japan

President Elect
John H. Krystal, USA

Secretary
Siegfried Kasper, Austria

Treasurer
Brian Dean, Australia

Councillors
Francesc Artigas, Spain
Elisabeth Binder, Germany
Philip J. Cowen, UK
Elisabeth Binder, Austria
Alan Frazer, USA
Nancy Ip, Hong Kong
Jun Soo Kwon, Korea
Barbara Sahakian, UK
Elisabeth Scarr, Australia
Gustavo Turecki, Canada

SCIENTIFIC INFORMATION

Plenary Lectures
The ISPC are tasked with selecting leaders in our field to present Plenary lectures at the CINP World Congress. These 45 minute lectures, highlighting cutting edge pre-clinical, clinical or translational research are presented by speakers recognised for their exceptional achievements in our field.

Symposia
Symposia of a 2 hour duration integrate the latest advances in basic, clinical and translational neuropsychopharmacology, biological psychiatry, drug development, public policy issues relevant to mental health, mental illness and treatment across the lifespan.

Educational and Scientific Workshops
Educational and scientific workshops typically involve brief presentations from individual panel members, followed by the opportunity for lively and informative discussion. This format provides substantial audience participation and should be highly interactive.

Free Communications
Authors are invited to submit abstracts on their latest research findings, which will be reviewed and the best will be selected and allocated for free communications structured by topics.

Poster Sessions
These sessions offer an effective forum for the exchange of information and a means to communicate ideas, research and programmes. Poster authors will have the opportunity to present and discuss their results in these highly interactive sessions in various fields.

Satellite Symposia
Satellite symposia will be organised and presented by pharmaceutical companies in consultation with the International Scientific Programme Committee. Breakfast, lunch and evening symposia are scheduled for 60 or 90 minutes.

Focus Groups
Specific events on thematic focuses that are designed to enable younger scientists or geographic representatives to use network and develop future ideas on how to improve neuropsychopharmacology.

Clinical and Personal Perspectives
Clinical Perspectives typically involve brief presentations from individual panel members from a clinical perspective, followed by the opportunity for lively and informative discussion. This format provides substantial audience participation in education and science and should be highly interactive.

CALL FOR SYMPOSIA

Submission of Symposia Proposals

Symposia are chosen on a highly competitive basis by the International Scientific Programme Committee from proposals submitted online via the congress website www.cinp2016.com

Four speakers including the Chairperson should represent at least three different countries and four different institutions. At least two speakers should be CINP members. Symposia proposals that include women or younger speakers are greatly encouraged. The Chairperson is required to submit a 500 word abstract which describes the symposium and the role of each speaker and a 100 word learning objective for the symposia. The Chair should also provide a recent reference for each speaker and confirmation in writing that they are willing to present during the 30th CINP World Congress of Neuropsychopharmacology in Seoul under the conditions stipulated. For each speaker the title of their presentation should be listed in the proposal.

An allowance for travel expenses, hotel and registration will be provided to accepted symposium speakers and the Chair. Chairpersons can submit no more than two symposia and speakers can agree to participate in no more than two proposals. All proposals will be reviewed by the International Scientific Programme Committee and notifications will be sent to all symposia submitters in July 2015.

Submission for Workshops, Free Communications and Poster Abstracts

The call for Workshops, free communications and poster abstracts will be included in the 3rd Announcement which will be published in July 2015. Submission will be made online via the congress website www.cinp2016.com from July 2015.

TOPICS

The CINP International Scientific Programme Committee welcomes the proposal of symposia that link the latest, and ground-breaking, preclinical developments with the clinical research on a given topic. Through the free and open exchange of ideas, CINP supports a strong focus on new approaches to the development and assessment of CNS pharmaceuticals by researchers working in both academia and industry.

CALL FOR SYMPOSIA

Symposia Submission Checklist

Please ensure that the symposium meets the criteria as stated and all required information is ready before a submission is made.

- Symposia proposals are to be in English, the official language of the 30th CINP World Congress.
- Each symposium consists of 4 speakers. They should include at least 2 CINP members, represent 3 different countries and 4 different institutions.
- A 500 word abstract describing the symposium and role of each speaker is to be uploaded by the Chairperson.
- A 100 word learning objective of the symposium.

For each speaker the following information will be required:

- A written commitment to lecture at the congress.
- At least one recent scientific reference.
- Full affiliation details and e-mail address.

The deadline for submission of symposia proposals is close of business UK time (GMT) on Friday 27th February 2015.

Any questions regarding the submission of symposia can be directed to the congress and exhibition office:

CINP Central Office
E-mail: cinp2016@cinp.org
Phone: +44(0)1355 244 930

Full instructions for online submission of symposia can be found on the congress website www.cinp2016.com or the CINP website www.cinp.org

WANT TO KNOW MORE?

There are a number of ways which you can keep up-to-date with all 2016 Seoul announcements and general CINP news from the CINP Central Office and Executive Committee.

Website
Full information on the entire 2016 Seoul World Congress is available on the congress website www.cinp2016.com or the general CINP website www.cinp.com

e-Newsletter
Sign up to our regular e-newsletter through the congress or CINP website.

CINP app
The free CINP app is available to download in the Apple Store or Android Market by searching for “CINP”. This app will allow you to not only create a personalised timetable for the congress, but also network with other registered participants and speakers at the 2016 Seoul meeting.

Social Media
CINP is also available on various social media platform so please “like” us on Facebook or “follow” @theCINP on Twitter.
